RE: Application Tracking #2154-M1

Dear Mr. Reiselt:

Environmental Health
Department

Air Quality Division

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

The City of Albuquerque, Environmental Health Department, Air Quality Division (Division) is responsible for the review and issuance of Air Quality Permits for any source of air contaminants within Bernalillo County. The Division performs a technical review of each application submitted and rules it either complete or incomplete. Once an application is deemed complete, the Division is required to provide at least 45 (but no more than 60) days for public comment on each application. If sufficient comment is received regarding the completed application, the Division may elect to hold a public hearing.

The Division received an Air Quality Permit application from **Smith's Food & Drug Centers, Inc.** to modify their air quality permit for the fuel dispensing station located at 410 Yale Blvd SE in Albuquerque, New Mexico. The Division performed an initial technical review of the application. The Division on October 21, 2011 conducted an evaluation and has ruled the application complete and has assigned this application permit #2154-M1.

A copy of the public notice for permit #2154-M1 to be issued in a locally circulated newspaper is included with this letter. The public notice period will run Friday, October 28, 2011 through Monday, December 12, 2011. If a hearing is judged appropriate, then the Division may take up to 180 days to issue the permit following the date upon which such application is deemed complete. If a public hearing is not scheduled, then the Division has 90 days to issue or deny a permit following the date upon which the application is deemed complete.

If you have any questions regarding this permit or require any additional information, please feel free to contact me at (505) 768-1965.

Sincerely,

A handwritten signature in cursive script that reads "Isreal L. Tavarez".

PUBLIC NOTICE

**Application for Air Quality Certificate of Registration and
Authority-to-Construct Permit
For Smith's Food & Drug Centers, Inc.**

Smith's Food & Drug Centers, Inc. has submitted an authority-to-construct air quality permit application for the modification to their current authority-to-construct air quality permit to the Air Quality Division (Division) of the City of Albuquerque Environmental Health Department to modify the air quality permit for the fuel dispensing station located at 401 Yale Blvd. SE in Albuquerque, New Mexico. Smith's Food & Drug Centers, Inc is requesting to increase gasoline throughput in the air quality permit from 3,405,040 gallons of gasoline per year to 4,500,000 gallons of gasoline per year. The volatile organic compound emissions are estimated to be increasing from 22.13 tons per year to 29.25 tons per which results in an estimated increase of 7.12 tons per year of volatile organic compound emissions. This application file has been assigned Permit #2154-M1. The owner of this fuel dispensing station is Smith's Food & Drug Centers, Inc., 1550 South Redwood Rd., Salt Lake City, Utah, 84116.

The air pollution emissions to the atmosphere from this facility have been estimated to be:

POLLUTANT	pounds per hour (lbs/hr)	tons per year (tpy)
Volatile Organic Compounds (VOCs)	7.8	29.25

The Division expects to initiate formal action on this permit application by January 19, 2012. However, the final writing of the permit will be reserved pending receipt and analysis of any additional details or information developed during the public comment. Interested persons may submit written comments or request a public hearing on Permit #2154-M1 to the Air Quality Division, Air Quality Services, P.O. Box 1293, Albuquerque, NM 87103. Comments will be accepted and considered if postmarked by December 12, 2011.

A copy of the permit application is available for inspection by the public at the Division offices, which are located at One Civic Plaza, Room 3047. For more information call Isreal Tavarez, Environmental Health Program Manger at (505) 768-1965.
