

FROM THE DESK OF  
ISAAC C. CHAVEZ

April 7, 2015

Dear James Montalbano:

This letter is to inform you of the proposed application to build a garage located in the back of 1924 Silver SE. The legal description of the property is as follows: Lot 1 Block 72, Terrace Addition located on 1924 Silver, Zone Atlas Page K 15. The cross streets are Terrace and Silver. The original garage had to be demolished due to structural issues deemed by the city. The original garage was a one story, one car garage and my intent is to build a one story, two car garage. The garage will sit in the same place as the previous garage and the extension will be into my existing yard and will not impede the alley way behind the property. You may reach me at (505) 550-2960 should you have any questions or comments. The hearing before the Landmarks and Urban Conservation Commission should be held on May 13, 2015. Thank you.

Sincerely,

Isaac C. Chavez
