Project Update - February 2016

Comments for Comp Plan Draft Due February 11!

ABC Comp Plan - Comments on the Public Review Draft

As you know, the first draft of updates to the Comprehensive Plan ("Comp Plan") has been up on the [project webpage](#) since January 15.

Display copies are available at all ABC Libraries and City Community, Multigeneration, and Senior Centers.

We would love to have your comments by **February 11, 2016** to consider them for revisions *PRIOR* to submittal to the City's Environmental Planning Commission (EPC) at the end of March.

Comments received *after* the deadline will be considered for subsequent revisions throughout the review and approval process. The earlier you get them in, the sooner we can consider them to improve the draft!

The public hearing at EPC will be scheduled for **May 5, 2016**. Times are still to be announced, but we will aim to provide opportunities for comment during the day as well as during the evening. This is expected to be the first step in the review and approval process, which will include public hearings at each stage. *We welcome public comments via letter, email, and in person at each stage.*

Thanks to all who have gotten us this far.

ABC Comp Plan - Public Meeting Recap

Four public meetings were held January 27 and 28 in various locations in the City and County. Thanks to all who made these meetings a success!

Approximately 200 people came to learn more about the Comp Plan and to provide comments. Each meeting included an overview of updates to the Comp Plan, time to ask questions at stations on each chapter in the Plan, and a question and answer session.

The full presentation and display boards are available on the project webpage [here](#).
